

Airl serves me as a resident of my local community by playing the wonderful christian music on a daily basis.

Airl's music is becommng very popular and there no airing commercials has attracted alot of listeners.

I believe Airl's music is very inspirational for christians and those who believe in God. By removing Airl you would be violating our community rights to choose who we listen to and interfere with the work God has planned with there radio station. If you don't believe listen for yourself 90.1 fm

And you will see what Im talking about!
